In high school the students are presented with three possible academic tracks they can follow. The elite International Baccalaureate Diploma Programme Track, the Science, Engineering and Technology Track and the College Preparatory track. All of these carefully planned and rigorous programs allow students to choose the right fit for them, to prepare them for life after high school. The curriculum is set up with quarterly system providing a balanced year of both academic and social/emotional development for students. The curriculum goals for each classroom are stated as general expectations; teachers are encouraged to exceed these goals whenever possible for the continued development of students.
