

River Stone Preparatory School.

ABOUT

The Riverstone International School strives to educate its students not only in academics but by building a sense of community, international awareness and leadership. One of the core components of the school is its outdoor education program that starts as early as the preschool age. In this program students develop their self confidence, leadership skills, they learn how to work cohesively in a group and develop age appropriate skills in a real world classroom setting.

In addition to this program students can also participate in sports such as alpine skiing, volleyball, soccer and basketball. They can also take advantage of the schools extracurricular programs which include Model United Nations, the school newspaper, and Invention Convention to name a few

LOCATION

Riverstone is located in scenic Boise, Idaho, just a short distance away from the Boise River. This location in the American northwest offers a wealth of outdoor recreational opportunities including world-class skiing, snowboard, rafting, and hiking.

Boise is the largest city in Idaho and is regional hub for culture and entertainment with many museums and galleries for students to enjoy. The thriving downtown has lots of fine dining and shopping options.

CURRICULUM

With a 100% college acceptance rate, Riverstone is committed to providing its students with academic excellence. The elite International Baccalaureate World School Programme is at the heart of the schools rigorous curriculum. This program is a gold standard recognized by top universities around the world. Riverstone is the first IB school in Idaho and one of only a few nationwide that offer all three components (primary, middle school, and diploma program). In addition to this program, the school offers travel opportunities for high school students to give them an international perspective of the world we live in. Travel opportunities extend to places such as Brazil, Washington DC and Alaska. These trips are designed to best match Riverstone's curriculum and extend the students classroom learning.
